# *Vision & Mission*

## VISION

*A poverty-free, prosperous, equitable and sustainable society*

## MISSION

*To empower vulnerable population through universal financial inclusion and holistic development*

# *Empowering Communities:*

## THE STORY OF BWDA FINANCE LIMITED

Born from a legacy of social upliftment, BWDA Finance Limited (BFL) stands as a pivotal Non-Banking Finance Company Microfinance Institution (NBFC-MFI) dedicated to fostering a poverty-free, prosperous, equitable, and sustainable society. With a robust presence across South India, the Andaman & Nicobar Islands, and Odisha, BFL champions the cause of low-income families through comprehensive financial inclusion and impactful social development initiatives.

BFL's journey began in 2003, but its roots delve deeper to 1985 with the establishment of its parent NGO (Non Governmental Organisation), BWDA (Bullock-cart Workers Development Association). BWDA laid the groundwork for socio-economic empowerment, famously pioneering the

Self Help Group (SHG) movement in South India in 1992. This foundational work nurtured self-sufficiency and poverty alleviation, paving the way for the BWDA Microfinance Program in 1999, which extended vital credit access to vulnerable women.

Recognising the immense potential of these financial services, BWDA strategically transitioned them into a distinct legal entity. This led to the acquisition of an NBFC in 2003, marking the official inception of BWDA Finance Limited. The newly formed BFL rapidly expanded its offerings beyond basic credit, embracing a wide spectrum of market-driven financial services including savings, credit linkage, remittance, pension, and insurance through various partnerships. A significant milestone occurred in April 2018 when the RBI

(Reserve Bank of India) reclassified BFL as an NBFC-MFI. This reclassification solidified BFL's position in the financial landscape, fostering key partnerships with leading institutions like State Bank of India and IDBI Bank, among others.

Today, BFL is a formidable force for change. Its team of over 741 dedicated employees supports a vast network of over 66752 SHGs, profoundly impacting the economic lives of nearly 949686 members.

BFL's commitment transcends financial services; it actively contributes to 14 UN Sustainable Development Goals through collaborative projects with BWDA, demonstrating a holistic approach to community development.

BFL's tangible impact is evident in its

impressive achievements: over INR 2640 crore disbursed to 16.86 million beneficiaries and INR 941.22 crore secured in funding from diverse financial institutions. Its operational strength is further validated by an MFI 1 grading from Infomerics Analytics and a BBB-stable rating from India Ratings & Research, a Fitch group Company.

In essence, BWDA Finance Limited stands as a beacon of hope and empowerment, offering not just financial inclusion but also holistic development solutions that uplift millions of low-income households across India. With a rich heritage, a robust operational framework, and an unwavering client-centric philosophy, BFL continues to drive meaningful and lasting change.

## **FINANCIAL INCLUSION AND THE UN SUSTAINABLE DEVELOPMENT GOALS**

At BWDA Finance Limited, we recognize that financial inclusion is not merely a service; it is a fundamental pillar for building resilience and actualizing the shared prosperity envisioned by the United Nations Sustainable Development Goals (SDGs). This powerful synergy is widely acknowledged, with access to financial services positioned as a pivotal enabler across 13 of the 17 SDGs, and even specifically featured as a direct target within eight of these transformative global objectives. Financial inclusion inherently sits at the crucial intersection of the economic and social dimensions of sustainable development, acting as a catalyst for widespread progress.

Extensive research unequivocally demonstrates that financial inclusion exerts a measurable and profound impact on overall economic growth, significantly contributing to the achievement of broader development aspirations. Specifically, it actively:

- Promotes robust economic growth and enhances financial stability.

- Effectively mitigates financial risks for vulnerable populations.
- Builds critical resilience during times of crisis and unforeseen shocks.
- Improves earning potential and fosters economic mobility.
- Enhances women's empowerment, unlocking their full potential.
- Cultivates stable financial systems and resilient economies.

BFL firmly believes that financial inclusion – defined as the delivery of affordable financial services to disadvantaged and low-income segments of society, and the sustainable,

responsible linkage of the poor to mainstream financial services – is the ultimate key to true empowerment.

Our commitment transcends mere financial transactions. BFL is deeply invested in the holistic development of our beneficiaries, consistently implementing projects and initiatives that directly contribute to 14 of the UN Sustainable Development Goals.

The ripple effect of these initiatives extends far beyond individual women. By empowering women to become financially independent and active participants in the economy, we directly contribute to the formation of stronger families, more vibrant communities, and ultimately, a more equitable society for all. We are proud to present some examples of the tangible positive outcomes BFL has witnessed:

- **Increased Household Income:** Women entrepreneurs who have received microloans have consistently reported significant increases in their household income, leading to a palpable improvement in their families' overall well-being and security.
- **Enhanced Decision-Making Power:** Through active participation in our financial literacy programs and leadership development initiatives, women gain heightened confidence and establish a stronger, more influential voice within their households and broader communities.
- **Inspiring Role Models for the Next Generation:** The compelling success stories of empowered women serve as powerful inspirations for younger generations, encouraging them to pursue their own ambitions and to courageously challenge traditional gender norms.

BFL's commitment to gender equality is resolute and unwavering. We firmly believe that by investing strategically in women, we are fundamentally investing in a brighter and more prosperous future for everyone.

# *Advancing Financial Inclusion across India:*

## **MARKET LANDSCAPE AND BWDA FINANCE LIMITED'S EXPANDING REACH**

The microfinance sector in India remains a powerful catalyst for financial inclusion and poverty alleviation. Despite its inherent challenges, a strong commitment to responsible lending practices ensures that the benefits of microfinance effectively reach the nation's most vulnerable populations. However, the industry has faced turbulence this year, registering a contraction of 8.5% between March 2024 and March 2025.

Within this struggling ecosystem, NBFC-MFIs have clearly emerged as leaders. With a robust Gross Loan Portfolio (GLP) of INR 1,47,566 Crore, they command the largest market share at 39.35%. Following closely are traditional banks, contributing a GLP of INR 1,22,826 Crore, accounting for 32.75% of the market share. Small Finance Banks (SFBs) also play a crucial role in the sector.

This market dynamic highlights the pivotal role NBFC-MFIs, like BFL, play in extending financial services to the last mile.

BWDA Finance Limited's strategic outreach currently spans seven diverse states and union territories: Tamil Nadu, Puducherry, Kerala, Karnataka, Odisha, Andhra Pradesh and the Andaman & Nicobar Islands. Our ambitious vision extends beyond this footprint, with a clear strategic aim to achieve a pan-India presence, serving low-income communities across the entire country. Our formidable network today comprises 118 branches, diligently serving a growing member base of over 949686 individuals organized into 66752 Self Help Groups (SHGs).

This expansive reach is powered by a dedicated team of 749 "change drivers," who tirelessly work on the ground, empowering these communities through impactful financial inclusion initiatives. Our legacy runs deep, with members who have been associated with BWDA since the very genesis of the SHG movement in Tamil Nadu back in 1988, a testament to our long-standing relationships and trust. In a testament to our commitment to growth and accessibility, BWDA Finance Limited significantly extended its branch network by inaugurating 13 new branches during FY 2024-2025. The specifics of these new branch locations are detailed in the subsequent tabulation.

# *Catalyzing Positive Change Through Innovative Programs:*

## **FINNOVATIONS AT BWDA FINANCE LIMITED**

BWDA Finance Limited (BFL) transcends the traditional role of a financial institution; we are a dedicated champion for India's most vulnerable communities. Our strategic approach involves crafting innovative financial products that not only address specific, pressing needs but are also meticulously aligned with the transformative vision of the United Nations Sustainable Development Goals (UN SDGs). At BFL, we offer more than just access to capital; we provide the indispensable tools that pave the way for a brighter and more secure future. Our profound commitment to this vision is powerfully exemplified through two flagship initiatives:

- **Pudhumai SHGs (Self Help Groups) - The BWDA Widows and Destitute Welfare Program:** This pioneering program stands as a beacon of hope, specifically designed to empower widows and destitute women by facilitating the formation of Self Help Groups (SHGs). These groups are more than just financial collectives; they serve as vital support networks, fostering a sense of community and providing crucial skill-building opportunities.
- **B-WaSH - The BWDA Water Sanitation and Hygiene Program:** Recognising the foundational importance of health and dignity, this program directly tackles critical sanitation and hygiene challenges. By facilitating access to clean water and improved sanitation facilities, B-WaSH significantly elevates the living conditions and overall well-being of low-income communities.

At BFL, we acutely recognise the escalating threat of climate change and is currently in the advanced stages of developing this groundbreaking program for building climate resilience and climate response.

## Pudhumai SHGs: A Beacon of Hope for Widows and Destitute Women

BWDA Finance Limited directly confronts a pressing social issue: the critical lack of support and economic opportunity for widows and destitute women. Through our transformative Pudhumai SHGs program, BFL empowers these resilient women to transition into self-sufficient micro-entrepreneurs, thereby fostering their economic independence and social integration

### Key Elements of the Pudhumai Program:

- **Empowering Financial Inclusion:** Pudhumai SHGs provide essential access to low-cost credit, featuring a competitive interest rate of 18%. This affordable financing enables members to strategically invest in livelihood-generating businesses or effectively manage unexpected financial needs, providing a critical safety net.
- **Comprehensive Skill Development:** BFL is dedicated to holistic empowerment, offering robust and comprehensive training programs. These programs equip members with invaluable livelihood and business skills, enhancing their capacity for sustainable income generation.
- **Nurturing Community Building:** Each Pudhumai group comprises 10 women, meticulously fostering a supportive and empathetic network. Within these groups, members openly share challenges, collectively celebrate successes, and consistently find mutual encouragement and strength.
- **Breaking Societal Barriers:** BFL's commitment extends beyond financial aid. We actively engage in raising awareness and fostering motivation among participants, supporting them in overcoming societal stigmas and building self-confidence.

Over 1315 widows have directly benefitted from the life-changing support provided by this program. A robust network of 219 Pudhumai groups has been successfully established, encompassing 2378 dedicated members. More than INR 541.00 lakhs has been strategically disbursed, directly empowering these women economically and fostering their self-reliance.

## Beyond Widows: Supporting the Transgender Community

BFL extends its compassionate and inclusive support to the transgender community, recognizing the unique challenges they face in accessing mainstream financial services and social acceptance. Our initiatives include:

- INR 34.14 lakhs in microcredit has been disbursed, directly benefiting 68 transgender members, fostering their economic independence.
- Crucially, relief supplies were provided to 64 transgender individuals during the unprecedented challenges of the COVID-19 pandemic, demonstrating our commitment beyond financial products.

## B-WaSH: Bringing Sanitation and Hygiene to Low-Income Households

The BWDA Water Sanitation and Hygiene Programme (B-WaSH) addresses another critical societal need: equitable access to clean water and dignified sanitation facilities. This impactful program, meticulously implemented through a collaborative effort between BFL, BWDA, and Water.org, focuses on:

- **Raising Critical Awareness:** B-WaSH has successfully educated over 1.3 million beneficiaries on the paramount importance of Water, Sanitation, and Hygiene (WASH) practices, fostering healthier communities.
- **Facilitating Financial Support:** The program has successfully facilitated over INR 80.43 crores in dedicated water credit; enabling households to invest in essential WASH infrastructure.
- **Driving Infrastructure Development:** This significant financial support has translated into tangible improvements, resulting in:
  - 60,348 safe household water connections
  - 13,992 hygienic household toilets
  - Collectively, these interventions have demonstrably improved the living conditions for over 371,700 individuals, enhancing their health and dignity.

## Looking Forward: Sustainable Solutions for a Healthier Future

BFL's dedication to improving WASH conditions remains unwavering. We are actively exploring and pioneering innovative solutions for establishing sustainable net zero community drinking water plants and developing resource-efficient, environmentally friendly sanitation facilities. This forward-looking approach underscores our commitment to long-term impact.

BWDA Finance Limited's profound commitment to financial inclusion and social development is evident in every facet of our operations. Through the transformative impact of the Pudhumai SHGs and the vital B-WaSH programs, we are not merely empowering women and improving lives; we are actively constructing a brighter, more equitable future for underprivileged communities across India.

## Building a Sustainable Future: Green Finance for Low-Income Households

Climate change poses an existential threat, with low-income households being among the most vulnerable. India is ranked among the top countries most vulnerable to the impacts of climate change. With over 1.4 billion people and a majority dependent on climate-sensitive sectors like agriculture, the country faces significant environmental and socio-economic challenges. A study by the Council on Energy, Environment and Water (CEEW) revealed that over 75% of India's districts are now extreme climate event hotspots, a threefold increase over the last 50 years. These events disproportionately affect low-income and marginalised populations who often live in vulnerable geographies and lack access to adequate housing, sanitation, healthcare, and financial safety nets (CEEW, 2021). Key challenges include:

- **Livelihood insecurity:** The agricultural sector, which employs a large portion of India's rural poor, is being destabilised by shifting weather patterns and declining soil and water health ([FAO, 2021](#)).
- **Increased disaster exposure:** The Climate Risk Index 2021 by Germanwatch ranks India as the 7<sup>th</sup> most affected country globally in terms of climate-related fatalities and economic losses over the past two decades (Germanwatch, 2021).
- **Lack of adaptive capacity:** Low-income households often lack access to clean energy, resilient housing, insurance, and emergency credit, limiting their ability to prepare for or recover from climate shocks ([World Bank, 2020](#)).

Despite the scale of the crisis, climate finance in India is largely skewed toward mitigation-focused projects and industrial sectors, with minimal reach to grassroots adaptation needs. There is an urgent need to redirect and democratise climate finance to support resilience-building among vulnerable populations.

At BWDA Finance Limited (BFL), we recognise the critical need for climate action, particularly for low-income households that are disproportionately affected by climate change. To address this, BFL is launching an innovative Green Finance initiative to leverage financial inclusion to build climate-resilience and sustainability. By designing tailored green financial products and services, such as loans for solar energy, water conservation, green housing, and climate-resilient livelihoods, we aim to enable low-income households to withstand, adapt to, and recover from environmental shocks. Through this initiative, BFL is not only addressing an urgent developmental need but also contributing to India's broader climate goals under the Paris Agreement and the UN Sustainable Development Goals (SDGs). This program will integrate climate resilience, sustainability, and financial inclusion by offering tailored credit and non-credit interventions. The initiative aligns with multiple UN Sustainable Development Goals (SDGs), particularly SDG 1 (No Poverty), SDG 7 (Affordable and Clean Energy), SDG 11 (Sustainable Cities and Communities), and SDG 13 (Climate Action).

Through this innovative and forward-thinking program, BFL will offer specially designed green loans to assist low-income households in making a crucial transition to clean energy solutions. These impactful solutions will encompass:

- **Solar Power Systems:** Providing financing for the installation of rooftop solar panels, thereby significantly reducing reliance on conventional energy grids and substantially lowering electricity bills for families.
- **Energy-Efficient Appliances:** Offering affordable loans for the acquisition of energy-efficient appliances, such as LED bulbs and water-saving devices, resulting in notable reductions in energy consumption and tangible cost savings for households.
- **Clean Cooking Solutions:** Facilitating access to financing for modern, smokeless cookstoves or biogas plants, actively promoting cleaner cooking methods and profoundly improving indoor air quality, leading to better health outcomes.

These pioneering green finance initiatives will not only contribute immensely to a cleaner environment by reducing greenhouse gas emissions and promoting sustainable practices but will also deliver several direct and transformative benefits to low-income households including reduced energy costs, improved health outcomes and enhanced climate resilience.

#### **Climate Crisis Response: Rehabilitative Credit - Building Resilience and Recovery**

While the term "climate crisis response rehabilitative credit" may not yet be universally common, it embodies a powerful and essential concept at BFL. It signifies a specialised financial instrument designed to empower individuals and communities to recover from and adapt to the severe impacts of climate change. Rehabilitative Credit denotes a targeted financial mechanism – potentially a loan, a structured grant, or another form of financial assistance – specifically designed to aid individuals or communities in their recovery from climate-related damage or to facilitate adaptation to new environmental realities. Following devastating natural disasters such as floods or cyclones, rehabilitative credit could be deployed to finance essential repairs or even the complete reconstruction of homes and businesses for affected communities, providing a pathway to normalcy.

In regions experiencing protracted environmental shifts, such as rising sea levels or encroaching desertification, rehabilitative credit could strategically support investments in climate-resilient infrastructure, or facilitate necessary relocation efforts for displaced communities. This credit mechanism could be utilised to incentivise individuals and businesses to adopt sustainable practices that actively mitigate the effects of climate change. This might encompass funding for energy-efficient upgrades, the adoption of sustainable farming techniques, or participation in vital reforestation projects.

# Ms. Durreen Shahnaz's: THE DEFIANT OPTIMIST

In "The Defiant Optimist (2023)", Ms. Durreen Shahnaz, Founder of Impact Investment Exchange, spotlights BWDA as a champion of sustainable, and gender-inclusive development. In the chapter 26, "Investment in Women", she recounts her visit to Tamil Nadu and witnessing women empowerment in the southern part of India. She emphasises on the BWDA's social mission of "improving the welfare of its members".

She recalls visiting BWDA and meeting its founder, Dr. C Joslin Thambi and being impressed by the organisation's role in safeguarding the interests of bullock-cart workers, formation of SHGs, and inculcating saving and thrift habits among the women. She was equally moved by the founder's stand on not increasing the interest rates in line with prevailing market rates, clearly highlighting BWDA's social mission. Given this, through a personal message, she called the founder a "Defiant Optimist".

Interestingly, in order to support social mission driven organizations such as BWDA, she founded the IIX organization. This will help them to ensure balance between pursuits for financial sustainability and social impact.

## **BWDA FINANCE LIMITED'S OPERATIONAL PERFORMANCE**

The fiscal year 2024-2025 has been a period of significant achievement and robust growth for BWDA Finance Limited (BFL), underscoring the effectiveness of our strategic initiatives and our unwavering commitment to financial inclusion. Our operational performance metrics reflect not only our expanding reach but also the strength of our partnerships and the deepening trust of our beneficiaries.

In the financial year 2024-2025, the organisation expanded its footprint by increasing the number of states covered from 6 to 7, and the number of districts from 30 to 33. This expansion is reflected in the growth of operational branches, which rose from 105 to 118, demonstrating a steady increase in infrastructure. Staff levels also saw a notable increase, with field staff growing by 25, corporate staff by 10, and branch staff (excluding field staff) by 37. This resulted in a 10.8% overall increase in the total workforce, from 669 to 741 employees, supporting the growing operational demands.

The client base showed steady growth. The number of active borrowers increased modestly from 120,842 to 126,534, while active loans also rose from 129,591 to 130,826. A more substantial growth was observed in the number of centres and groups, which grew by 5,886, reaching a cumulative total of 66,752. However, new member additions declined from 94,655 in FY 2024 to 75,888 in FY 2025, due to implementation of stronger guardrails by the SROs' and slow take off BC new product issued by State Bank of India. Despite this, the total number of members rose to 949,686, reflecting strong retention and engagement within the existing groups.

On the financial side, Total loan disbursement has been decreased of ₹7736.72 lacs, up from ₹48,353.20 lacs to ₹ 40,616.48 lacs, due to the slower implementation of SBI BA arrangement new product. However, the outstanding loan portfolio showed mixed trends. The managed portfolio decreased by ₹4,415.79 lacs, while the own portfolio increased by ₹3,693.83 lacs. The total loan outstanding decreased slightly by ₹721.96 lacs, from ₹53,118.50 lacs to ₹52,396.54 lacs, indicating a slight contraction in the overall portfolio. The repayment percentage has been decline from 96.83% to 93.99%, due various factors such heavy flood in major area, change in customer behavior, overall industry pressure prevailing in the Microfinance Sector.

In conclusion, the year 2024-2025 saw substantial growth in coverage, staff, and loan disbursements, but challenges arose in terms of loan repayment and risk management.

## **BWDA FINANCE LIMITED'S FINANCIAL PERFORMANCE**

BWDA Finance Limited (BFL) concluded Fiscal Year 2024-2025 with a robust financial performance, reflecting strategic growth, operational efficiency, and a strengthened balance sheet. Our commitment to both financial prudence and widespread inclusion has translated into measurable success, reinforcing our position as a leading NBFC-MFI in the sector. FY24 marked a period of robust financial health for BFL. During the financial year 2024–25, the Company achieved a total income of ₹7,274.91 lakhs, reflecting a robust growth of approximately 17.3% over the total income of ₹6,036.54 lakhs in FY 2023–24. This increase highlights the Company's enhanced operational performance and strengthened revenue-generating capabilities.

Total expenditure for the year amounted to ₹6,115.67 lakhs, an increase from ₹4,811.72 lakhs in FY 2023–24. The rise in expenditures was primarily driven by higher finance cost and Human resource cost, which aligned with the expanded scope of business activities during the year. As a result, the profit before tax (PBT) for FY 2024–25 stood at ₹1,159.24 lakhs, compared to ₹1,224.82 lakhs in the previous year. The slight decrease in PBT was mainly due to the higher operating expenses that somewhat offset the growth in revenue. The current tax expense for the year was ₹364.54 lakhs, lower than the ₹428.94 lakhs recorded in FY 2023–24. Consequently, the profit after tax (PAT) for FY 2024–25 amounted to ₹796.22 lakhs, slightly lower than the ₹798.20 lakhs in FY 2023–24. This modest decline in PAT reflects stable profitability despite the overall MFI industry pressure. Overall, the Company has maintained strong financial health, with stable profits and efficient tax management despite a slight compression in margins due to higher operating expenses.

**"Information Other than the Financial Statements and Auditor's Report Thereon"**

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report, but does not include the Financial Statements and our auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Management's Responsibility for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

**Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in

- (i) Planning the scope of our audit work and in evaluating the results of our work; and
- (ii) To evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

**ANNEXURE - B TO THE INDEPENDENT AUDITOR'S REPORT ON THE STANDALONE FINANCIAL STATEMENTS**

(Referred to in Paragraph 2(f) under 'Report on other Legal & Regulatory Requirements' section of our Report for the year ended 31 March 2025)

**Report on the Internal Financial Controls over Standalone Financial Statements under Clause (i) of sub - section (3) of section 143 of the Act.**

We have audited the internal financial controls over financial reporting of **M/s. BWDA FINANCE LIMITED** ("the Company") as of March 31, 2025, in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal

financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

**Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- i. Pertain to the maintenance of records that, in reasonable details, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- ii. Provide reasonable assurance that the transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- iii. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Standalone Financial Statements.

**Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on "the internal financial control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

Contributions are made to Employees Provident Fund Organization in respect of Provident Fund, Pension Fund and Employees Deposit Linked Insurance Scheme at the prescribed rates and are charged to Statement of Profit & Loss at actuals. The company has no liability for future provident fund benefits other than its annual contribution.

**b) Defined Benefit Plan Gratuity:** The Company provides for gratuity covering eligible employees under which a lumpsum payment is paid to vested employees at retirement, death, incapacitation or termination of employment, of an amount reckoned on the respective employee's salary and his tenor of employment with the Company.

The Company accounts for its liability for future gratuity benefits by participating in the Group Gratuity Scheme with LIC and has made a lumpsum Contribution towards the policy out of which the gratuity benefits are settled. The Company recognizes the net obligation of the gratuity plan in the balance sheet as an asset or liability, respectively in accordance with Accounting Standard 15, 'Employee Benefits' actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the Statement of Profit and Loss in the period in which they arise.

**2.8 Earning per equity share**

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes, if any) by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

**2.9 Taxes on income**

Provision for tax for the year comprises current tax and deferred tax. Provision for current tax is made based on the estimated tax liability in accordance with the prevailing tax rates and tax laws.

Deferred taxes reflect the impact of timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the Balance Sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In a situation where the Company has unabsorbed depreciation or carry forward tax losses, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that such deferred tax assets can be realised against future taxable profits. The carrying amount of deferred tax assets are reviewed by the Company at each Balance Sheet date and the carrying amount of a deferred tax asset is written down to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax asset can be realised.

**2.10 Provisions and contingent liabilities**

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding employee benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. A disclosure is made for a contingent liability when there is a:

- possible obligation, the existence of which will be confirmed by the occurrence/non-occurrence of one or more uncertain events, not fully within the control of the Company;
- present obligation, where it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation;
- present obligation, where a reliable estimate cannot be made.

**2.11 Foreign currency transactions and translations**

Initial recognition

Transactions in foreign currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

Measurement of foreign currency monetary items at the Balance Sheet date

Foreign currency monetary items (other than derivative contracts) of the Company at the Balance Sheet date are restated at the year-end rates.

Treatment of exchange differences

Exchange differences arising on settlement / restatement of short-term foreign currency monetary assets and liabilities of the Company are recognised as income or expense in the Statement of Profit and Loss.

**2.12 Accounting for Investments**

Non Current (Long Term) Investment is being carried at cost. Current investments are carried at lower of cost or market price. Dividend received from Dividend re-investment plans are taken to cost of investment in the year of receipt.

**2.13 Borrowal Costs:**

Borrowing costs include interest and other costs incurred in connection with the borrowing of funds. Borrowing costs (net of income) attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of the assets. Other borrowing costs are recognised as expense as and when incurred. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale.

**2.14 Leases**

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis over the lease term.

**2.15 Securitisation of loan receivables**

Securitisation refers to the process of pooling various types of loan receivables and selling them to a Special Purpose Vehicle (SPV), which in turn issues securities to investors, backed by the cash flows from the loan receivables. Loan receivables are derecognised from the books upon transfer to the SPV only if all significant risks and rewards of ownership have been transferred to the SPV. If the above condition is not satisfied, the assets shall continue to be recognised, and corresponding liability shall be recorded.
